

**REMARKS**

Entry of the amendment is requested. Claims 1-8 as amended, are pending.

With respect to the Examiner's Statement at "1," this is not true. Standard practice permits the applicant to refer to subsequences of larger sequence, as applicants have done so here.

Regarding items 2 and 3, no comment is required.

Specification ext has been amended to address item 4.

Regarding item 5, SEQ ID NO: 1 now is identical to the sequence of parent priority document 60/474,893 and matches the sequence of NY-ESO-1 of both U.S. Patent No. 5,804,381 and Chen, et al., Proc. Natl. Acad. Sci. USA, 94:1914-1918 91997). As these have been incorporated by reference, amendment is proper.

This amendment is believed to address point 7 of the action, as well, together with the claim amendments.

It is believe that all issues have been addressed and allowance of the application is proper.
